

# SAFE

# VO<sub>2</sub> MAX TESTING

DURING THE COVID-19 PANDEMIC

# 1

## PROTECT PATIENTS

### USE A KORR TAKE HOME MASK

KORR take home masks are only used by **ONE CLIENT** and are **STERILE**, protecting patients with a **ONE-WAY VALVE** that draws fresh air from the room with each breath.

## PROTECT AGAINST CROSS-CONTAMINATION CLEAN YOUR Y-VALVE

# 2

Remember to clean your Y-valve with hot, soapy water **BETWEEN EVERY TEST**. Just like washing your hands, dismantling and washing the valve is crucial.

# 3

## PROTECT STAFF

### USE PROPER PROTECTION

Use proper protection when handling equipment. **WEAR MASKS AND GLOVES** when handling any test accessories. **DON'T TEST PATIENTS WHO ARE SYMPTOMATIC** or who test positive for COVID-19.

## WHY IS TESTING SAFE?

THE MASK TOUCHING YOUR FACE IS STERILE AND THE VALVE FORCES AIR ONE WAY

ONLY CLEAN AIR ENTERS

NO CROSS-CONTAMINATION BECAUSE THE AIR MOVES ONE WAY
